

# Wilhelm und Else Heraeus Seminar #702: Otto Stern's Molecular Beam Research and its Impact on Science

## Tuesday, 3 September 2019

Femto- and Atto- science: Reinhard Dörner, Chair (11:00 - 13:00)

time	[id] title	presenter
11:00	[20] Keynote: Using light to control electrons that, in turn, create new light sources	Prof. CORKUM, Paul
11:45	[21] Synthetic Chiral Light for Efficient Chiral Light-Matter Interaction	Prof. SMIRNOVA, Olga
12:10	[22] Ultrafast molecular and electronic dynamics probed by free-electron lasers	Prof. UEDA, Kiyoshi
12:35	[23] Attoclock revisited	Prof. KELLER, Ursula
